STUDENTS CAN ENROL IN A DOUBLE-DEGREE MASTER PROGRAMME IN:
University of Siena, Faculty of Economics "Richard M. Goodwin" (UNISI)

GRADUATE DOUGLE DEGREE MASTER PROGRAMME

ECONOMICS

THE FUTURE OF THE WHOLE ECONOMIC AND SOCIAL ENVIRONMENT THAT SURROUNDS US.

In all countries, economists assume the top positions in society, are managers of the largest enterprises and banks, ministers and prime ministers, governors of central banks as well as managers of prestigious consultation companies and analytics departments. Economics is thus one of the elite programmes at the most prestigious universities, where only a few percent of the best students are accepted. It is the same in Slovenia. Economics is a demand-

ing study, requiring an ambitious and motivated individual with good analytical abilities. An individual who will be able, as shown by many examples, to make decisions in a key position in the business sector and in state policymaking. Why? Because graduates of the Economics programme are capable of resolving economic and business problems that other people are generally unable to identify or classify as important.

GENERAL CURRICULUM

1st year

1st semester

Microeconomics 3

Advanced Macroeconomics

Optimization methods in economics
