

Student Assistant – Regional Business Planning & Reporting

Biogen Pharma d.o.o. is seeking a motivated **Student Assistant** to join our **Regional Business Planning & Reporting** team.

What you will be doing

- Supporting the maintenance, enhancement, and development of **Power BI dashboards** that provide dynamic and user-friendly navigation across multiple P&L dimensions.
- Assisting with **regional business analysis and reporting**, providing insights and analytical support to key stakeholders across the organization.
- Contributing to reporting automation and data visualization initiatives.

We are looking for a student who:

- Has experience with, or a strong interest in learning, **Power BI** and data visualization tools.
- Can work independently and proactively develop new skills when needed.
- Is solution-oriented, analytical, and eager to learn and continuously improve.
- Has strong attention to detail and enjoys working with data and reporting.

What we offer

- Hands-on experience in a regional finance and business planning environment.
- Exposure to Power BI development, reporting, and business analytics.
- Opportunity to work with an experienced and collaborative international team.

Estimated workload: Approximately 6 hours per day

Compensation: €11.00 gross per hour

Why Biogen?

Our mission to discover and deliver innovative therapies for people living with neurological and rare diseases is a unique focus within our industry. This shared purpose is what connects us as a team. We work together to overcome challenges, follow the science, and make a meaningful difference for patients. We are resilient, innovative, and driven by the opportunity to change the course of medicine and improve lives.

Together, we pioneer. Together, we thrive.
