Study programme learning outcomes

The key objectives and competencies of the Bank and Financial Management programme are as follows:

- Key objective 1: A graduate knows how to apply appropriate economic principles, strategic theories and concepts when making managerial decisions.
 - Key sub-objective 1.1: A graduate knows how to apply economic principles when making managerial decisions.
 - Key sub-objective 1.2: A graduate is familiar with strategic theories and concepts in the field of advanced strategic management.
- Key objective 2: A graduate consolidates and upgrades their knowledge of finance from the undergraduate to the graduate study level.
 - Key sub-objective 2.1: A graduate is able to identify and analyse common banking problems, develop alternative solutions, critically evaluate them and propose solutions.
 - Key sub-objective 2.2: A graduate knows how to identify and analyse complex banking problems, develop alternative solutions, critically evaluate them and propose the most appropriate solution.
- Key objective 3: A graduate knows how to collect, analyse and explain data as well as interpret the results after applying appropriate quantitative and qualitative methods.
 - Key sub-objective 3.1: A graduate knows how to collect, process and analyse quantitative and qualitative data, and based on it acquire information for a correct financial and investment decision.
 - Key sub-objective 3.2: A graduate knows how to interpret data as well as understand and evaluate the results of statistical tools and analytical models.
- Key objective 4: A graduate possesses effective communication skills.
 - Key sub-objective 4.1: A graduate possesses effective written communication skills.

- Key sub-objective 4.2: A graduate possesses effective oral communication skills and knows how to employ appropriate media.
- Key objective 5: A graduate possesses good teamworking skills.
 - Key sub-objective 5.1: A graduate works efficiently as part of a team.
- Key objective 6: A graduate is able to critically analyse and use the concepts of corporate sustainability and corporate social responsibility.
 - Key sub-objective 6.1: A graduate is able to critically analyse corporate social responsibility and corporate sustainability dilemmas as well as use such analysis when making strategic decisions.

General competencies (learning outcomes):

- ability to think logically and in abstract terms, to analyse, synthesise and evaluate,
- ability to identify and resolve problems as well as make decisions,
- ability to think critically and comprehensively,
- ability to make independent searches as well as interpret and use new sources of knowledge in expert and scientific fields,
- ability to contextualise and autonomously upgrade information,
- ability to expertly and effectively use information-communication technologies (ICT) when searching, selecting, processing, presenting and forwarding data and information,
- ability to express in writing and orally their knowledge in an expert field as well as to critically evaluate it,
- good teamworking skills.

Subject-specific competencies (learning outcomes):

- ability to define and analyse problems, phenomena and developments in the banking area,
- ability to find alternative solutions to problems in the banking and financial areas, to critically evaluate them and propose solutions,
- ability to collect and process qualitative and quantitative data, to analyse and synthesise them as well as critically evaluate them,
- ability to acquire appropriate information for the purpose of adopting financial and investment decisions,
- ability to analyse appropriate analytical methods and statistical tools, to interpret and evaluate results for the purpose of making decisions in the banking and financial areas,
- ability to apply the concepts of ethical conduct as well as corporate professional and social responsibility to current developments in banking and finance.

Admissions Criteria

Anyone that has completed the following is eligible to enrol in the first year of the Master's programme Bank and Financial Management:

- Graduates of first-level programmes in relevant study programmes with at least 180 ECTS, or those that have completed the pre-Bologna programme of study for qualification in relevant study programmes;
- Graduates of equivalent courses listed in the previous paragraph in unrelated areas of study and must complete additional academic requirements of 12 ECTS: Microeconomics 1 (6 ECTS) and Introduction to Business (6 ECTS).

In cases where available spots are limited:

In cases where available spots are limited, candidates are ranked based on their undergraduate GPA (70%) and the exam results of Type 2 and Type 3 undergraduate elective courses (30 %).

Enrolment by transition criteria:

Candidate, who passes from one programme to the other, must meet the enrolment requirements of the other. Commission for Academic Affairs of the UL SEB defines possible additional study obligations if the study content of previous studies does not cover the content of the chosen master's study programme.

Title conferred in the original language: magister poslovnih ved/ magistrica poslovnih ved

Title conferred in the original language (abbreviated): mag. posl. ved

Title conferred in English language (and title abbreviated): Master of Science (M.Sc.)

STUDY PROGRAMME CURRICULUM BANK AND FINANCIAL MANAGEMENT

Year 1

	University Course Code	Course title	Lecturers	Contact hours					Individual student work	Total hours	ECTS	Semesters	Elective
				Lectures	Seminar	Tutorials	Clinical tutorials	Other forms of study
